Facts about Scleroderma

- "Sclero" means hard and "derma" means skin. A hard word and an even harder disease to be diagnosed with.

- Hardening skin is just one of many symptoms. Stiff joints, digestive issues, lung scarring and kindney failure all can result.

- Scleroderma affects 300,000 Americans yet few people have heard of it.

- Medications can sometimes help slow progression but there is no cure.

The Mission of the Scleroderma Foundation Southern California Chapter

is to SAVE LIVES and CURE SCLERODERMA through programs commited to SUPPORT, EDUCATION, and RESEARCH.

- Providing educational and emotional SUPPORT for patients and their families.
- Promoting awareness to the public and EDUCATION within the medical community.
- Funding RESEARCH to find a cure.
